G0 Frame work and risk
Greenfield | Brownfield | AMS
G1 AI-assisted discovery
Source, policy, behavior, uncertainty
G2 Human-approved oracle baseline
Authority + provenance + version
oracle defect
G3 Qualify the oracles
Mutants + negative controls + coverage
G4 Authorize AI execution envelope
Build / adapt / test / repair
software fault
G5 Independent verification
PASS | FAIL | INCONCLUSIVE
G6 Human go/no-go
Release / canary / wave / cutover
G7 Observe and evolve
Production evidence + drift + new version
change / new work
